Mission Statement

The mission of Otolaryngology–Head and Neck Surgery is to publish contemporary, ethical, clinically relevant information in otolaryngology, head and neck surgery (ear, nose, throat, head, and neck disorders) that can be used by otolaryngologists, scientists, clinicians, and related specialists to improve patient care and public health.
Facial Plastic and Reconstructive Surgery

Outcomes of Cadaveric Allograft versus Autologous Cartilage Graft in Functional Septorhinoplasty
Robert Saadi, MD, Justin Loloii, MS, Eric Schaefer, MS, and Jessyka G. Lighthall, MD

General Otolaryngology

Does Attending Surgeon Presence at the Preinduction Briefing Improve Operating Room Efficiency?
Rajeev C. Saxena, MD, MBA, Mark E. Whipple, MD, MS, Moni B. Nerdilek, MS, Stuart Solomon, MD, Christine T. Fong, MS, Bala G. Nair, PhD, and John D. Lang, MD

Machine Learning Diagnosis of Peritonsillar Abscess
Michael B. Wilson, MD, S. Ahmed Ali, MD, Kevin J. Kovatch, MD, Josh D. Smith, MD, and Paul T. Hoff, MD

Head and Neck Surgery

Influence of Socioeconomic Status on Stage at Presentation of Laryngeal Cancer in the United States
Nicole L. Lebo, MD, Diana Khalil, MD, Adele Balram, MPH, Margaret Holland, MA, Martin Corsten, MD, James Ted McDonald, PhD, and Stephanie Johnson-Obaseki, MD, MPH

Risk Factors and Incidence of Postoperative Delirium in Patients Undergoing Laryngectomy
Yiru Wang, MD, Huiqian Yu, MD, Hui Qiao, MD, Chan Li, MD, Kaizheng Chen, MD, and Xia Shen, MD

Acoustic Nanomotors for Detection of Human Papillomavirus–Associated Head and Neck Cancer
Jesse R. Qualliotine, MD, Gulcin Bolat, PhD, Mara Beltrán-Gastélum, PhD, Berta Esteban-Fernández de Ávila, PhD, Joseph Wang, PhD, and Joseph A. Califano, MD

Laryngology and Neurolaryngology

Incidence and Significance of Hypermetabolic PET-CT Findings in Unilateral TVF Motion Impairment
Luke Stanisce, MD, Timothy Renzi, Nikita Paripati, Nadir Ahmad, MD, Thomas C. Spalla, MD, Howard L. Roth, MD, and Yekaterina Koshkareva, MD

Esophageal Transit Times Vary with Underlying Comorbid Disease
Anna Miles, PhD, Kirany Bennett, MSc, and Jacqui Allen, MD, FRACS

Otology and Neurotology

Variations in Stapes Surgery Cost within a Multihospital Network
Geoffrey C. Casazza, MD, Andrew J. Thomas, MD, Jesse Dewey, Richard K. Gurgel, MD, Clough Shelton, MD, and Jeremy D. Meier, MD

Accuracy of a Modern Intraoperative Navigation System for Temporal Bone Surgery in a Cadaveric Model
Zachary G. Schwam, MD, Vivian Z. Kaul, MD, Maura K. Cosetti, MD, and George B. Wana, MD

Long-term Effects of Conservative Management of Vestibular Schwannoma on Dizziness, Balance, and Caloric Function
Kathrin Skorpa Nilsen, MD, Morten Lund-Johansen, MD, PhD, Stein Helge Glad Nordahl, MD, PhD, Monica Finnkirk, BSc, and Frederik Kragerud Goplen, MD, PhD
Image-Guided Mastoidectomy with a Cooperatively Controlled ENT Microsurgery Robot 852
Christopher R. Razavi, MD, Paul R. Wilkening, MS, Rui Yin, Samuel R. Barber, MD, Russell H. Taylor, PhD, John P. Carey, MD, and Francis X. Creighton, MD

Pediatric Otolaryngology

High-Frequency Ultrasound: A Novel Diagnostic Tool to Measure Pediatric Tonsils in 3 Dimensions 856
Emily Kay-Rivest, MD, Christine Saint-Martin, MD, MSc, and Sam J. Daniel, MD, MSc, FRCSC

Reliability and Construct Validity of the Penetration-Aspiration Scale for Quantifying Pediatric Outcomes after Interarytenoid Augmentation 862
Elizabeth H. Wick, MD, Kaalan Johnson, MD, Kim Demarre, MS, CCC-SLP, Amy Faherty, MS, CCC-SLP, Sanjay Parikh, MD, and David L. Horn, MD

A Standardized Care Pathway following Mandibular Distraction in Infants Less Than 3 Months of Age 870
Grace R. Leu and Andrew R. Scott, MD

Rhinosinusitis in Pediatric Primary Ciliary Dyskinesia: Impact of Disease 877
Jay M. Bhatt, MD, Ethan G. Muhonen, MD, Maxene Meier, MS, Scott D. Sagel, MD, PhD, and Kenny H. Chan, MD

Sinonasal Disorders

Analysis of Olfaction after Bilateral Nasoseptal Rescue Flap Transsphenoidal Approach with Olfactory Mucosal Preservation 881
Chester F. Griffiths, MD, Garni Barkhoudarian, MD, Aaron Cutler, MD, Huy T. Duong, Kian Karimi, MD, Olivia Doyle, PA-C, Ricardo Carrau, MD, and Daniel F. Kelly, MD

Clinical Traits Characterizing an Exacerbation-Prone Phenotype in Chronic Rhinosinusitis 890
Katie M. Phillips, MD, Eric Barbarite, MD, Lloyd P. Hoehle, David S. Caradonna, MD, DMD, Stacey T. Gray, MD, and Ahmad R. Sedaghat, MD, PhD

Sleep Medicine and Surgery

Previous Surgery and Hypoglossal Nerve Stimulation for Obstructive Sleep Apnea 897
Eric J. Kezirian, MD, MPH, Clemens Heiser, MD, Armin Steffen, MD, Maurits Boon, MD, Benedikt Hofauer, MD, Karl Doghramji, MD, Joachim T. Maurer, MD, J. Ulrich Sommer, MD, Ryan J. Soose, MD, Richard Schwab, MD, Erica Thaler, MD, Kirk Withrow, MD, Alan Kominsky, MD, Christopher G. Larsen, MD, Jennifer Hsia, MD, Reena Mehra, MD, MS, Tina Waters, MD, and Kingman Strohl, MD on Behalf of the ADHERE Registry Investigators

Case Report

Facial Nerve Duplication and First Branchial Cleft Cysts: An Association in an Uncommon Pathology 904
Jacob Eide, MD, André Isaac, MD, MSc, and John Maddalozzo, MD

Clinical Techniques and Technology

Flexible Endoscopic Zenker’s Diverticulotomy with an Articulating Bipolar Energy Sealer 906
Philip A. Weissbrod, MD, Aria Jafari, MD, Shanglei Liu, MD, Santiago Horgan, MD, and Robert A. Weisman, MD
